PROFILE

I am Zuale Alili, a web developer with a strong focus on frontend development. I have built practical projects applying skills learned in frontend, backend, and UI/UX courses. While proficient in both frontend and backend, my main focus is creating responsive, user-friendly interfaces. Currently pursuing a bachelor's degree in programming, I am committed to continuous learning and innovation in web development. I quickly adapt and deliver clean, efficient solutions that meet both technical and visual goals. Furthermore, I excel at collaborating with teams to ensure projects align with business objectives, enhancing the value of my developments.

WORK EXPERIENCE - WEB DEVELOPER

- **Portfolio Website: http://zualealiili.netlify.app**

"My personal portfolio showcasing all the projects and services I have created and developed, utilizing the latest technologies in web development."

1. **To-Do List: https://dailyliist.netlify.app**

"A daily task management app built with HTML, CSS, and JavaScript, storing tasks locally and allowing users to add, delete, and mark tasks as completed."

2. **E-Commerce Afrootech: https://afrootech.netlify.app**

"An online store for tech products, built with HTML, CSS, and JavaScript, featuring product filters and a simple purchase system."

3. **Restaurant Menu: https://menycoffe.netlify.app**

"An interactive restaurant menu with a responsive design, built with HTML and CSS, adaptable to all devices."

4. **Amaneti Foundation: http://fondacioni-amaneti.org**

"A charity foundation website with a PHP and MySQL backend for managing donations."

5. **Learti furniture: https://mobileriialearti.netlify.app**

"An online furniture store built with HTML, CSS, and JavaScript, featuring a price calculator based on square meters."
